The Aetna MedicareSM Plan (PPO) for Milwaukee Retiree Association

It's more than just a plan that helps pay your medical and prescription drug costs. It's a plan to help you live the kind of life you want in your retirement years. This Medicare Advantage plan option is available to you as a City of Milwaukee retiree.

Three key ways the Aetna[®] plan offers value

Save money

Get comprehensive coverage while saving on your plan premium contributions.

Continue getting care from the doctors you trust

Use doctors and hospitals in or out of the Aetna Medicare network, anywhere in the U.S. And don't worry, you won't pay more out of network.* Many major health care providers in Southeastern Wisconsin are in the network.

Enjoy extra benefits at no extra cost to you — only available with the Aetna plan

Take advantage of ways to stay healthy, save and simplify

- **SilverSneakers[®] fitness program:** Get a gym membership at thousands of participating locations nationwide, or a home fitness kit.
- **Hearing aid reimbursement:** \$500 reimbursement is available every 36 months.
- **Easy to use:** You'll have one ID card for medical services and pharmacy, and one simple benefits statement for medical claims.

Turn to the back for more information.

*Generally, you can use an out-of-network doctor or hospital. However, they must be eligible to receive Medicare payment and accept your plan.

- **Help finding everyday services you need:** Our Resources For Living® team can find help outside of your medical plan benefits, such as home-delivered meal services, in-home care and more.*
- **Advice on your health goals — in the comfort of home:** At an optional Healthy Home Visit, an Aetna health professional can help make sure you're on track to meet your health goals—then work with your doctors to coordinate your care.
- **Have a health advocate if you need one:** You may not need help today, but once you do, an Aetna Nurse Advocate can work closely with your doctors to help you manage your conditions and navigate complex medical issues.
